CITIZENS OF BLACKWELL, O. T., PF-TITION C. G. WARNER.

Probabilities are That the Missouri Pacific Will Extend Their Lines Into "K" County-The Citizens Have Made Extra ordinary Inducements. Offering to Give the Right, of Way, Furnish the Ties, Do the Grading and to Give a Cash Bonus-It is Believed Here That the Proposi tion Will be Accepted.

The people of Blackwell, O. T., sent a long petition to Vice President Warner of the Missouri Pacific at St. Louis, requesting him to use his influence in having the Missouri Pacific extend their Ines from Arkansas City to their town. The petition was forwarded early last week but so far nothing has been heard about the request made to Mr. Warner. Last Thursday a corps of Missouri Pa-

cific engineers passed through Kildare, which is on the Santa Fe, and struck out for Blackwell. This seeme to be very significant and portends an extension of the line. The citizens of Blackwell have been petitioning the different roads for several years to build a spur to their town, but it seemed to avail nothing, The citizens, never discouraged, kept on asking for a road and offering all kinds of inducements. In the petition to Mr. Warner It is understood that they offered to grant the right of way, supply the ties and would grade the road from any point within a radius of twenty-five miles of Blackwell. They also offered to raise by subscription among the citizens a bonus which they would tender the road.

Blackwell is only twenty miles from Arkaneas City, to which point the Missouri Pacific has a spur running down from Dexter, Kan. The town is thirteen miles from the Santa Fe and sixteen from the Rock Island. It is in the heart of a very rich agriculutral country and it compels the merchants to have all their merchandise hauled by wagon from one of the roads to their town. The furmers also have to make long journeys to get their cereals to market.

Blackwell is in "K" county, and it is said on good authority that the visible supply of wheat in the county will aggregate something like 2,000,000 bushels this year. Such crops as this, together with the supplies which are consumed by | Henry G. Perry of Chicago. the community, would amply pay a railroad to build through the county when offered such inducements.

seen yesterday and said that he knew U. S. chaplain under Gen. Davidson in skin diseases, headaches, kidney dethat the people of Blackwell had petitioned Mr. Warner, but he did not know that Churchman in San Francisco and bequestioned by the most competent auto visit Blackwell the first part of the city, and in 1870 took charge of St. next week. He said that the grade was go. He writes the following letter: very good, being very nearly level, and it would not cost a great deal to extend Messrs, Wells, Richardson & Co.:

Judging from the talk in railroad circies in this city, it looks very much as if month I began taking Paine's celery like a clock withou a balance wheel Blackwell will soon see the steam horse coming puffing into their town.

It has for centuries been considered incur-

It is not. almost unfailing cure for consumption almost unfailing cure for consumption An almost unfailing cure for consumption is found in Dr. Pierce's Golden Medical Discovery. It acts directly upon the lungs and also corrects the aggravating cause of the disease. It corrects all disorders of the di-gestion, invigorates the liver and makes the assimilation of the food perfect, thus nourishing and strengthening the system for its battle with its relentiess foe. It fills the ar-teries with the rich, pure blood of health, It builds new, healthy tissue in the lungs and drives out all impurities and diseas germs. It cures 98 per cent, of all cases of umption. Thousands have testified to cures. All druggists sell it.

their cures. All druggists sell it.

"I was taken sick in February, 1887, with typhoid pueumonia," writes Mrs. Henrietta Hart, of Voorheesville, Abbany Co., N. Y. "I then had a miscarriage. I did not leave my bed to sit in a chair till the first of June. I had medical care all that time. I was so weak I could not turn in bed alone. The doctor said he could do no more for me. I was coughing and raising and was almost dead with consumption. I gave up to die. I took seven bottles of Dr. Pierce's Golden Medical Discovery and 'Paworite Prescription' together inot seven of each, and I was then able to do my own housework for my family of four. In less than three years from the time I began your medicine. I gave birth to a healthy baby girt that wrighed eight pounds. I have had two children since, and am enjoying good health now."

Pretty eyes, bright, snappy and full of fire

Pretty eyes, bright, snappy and full of fire and life. Constipation makes the blood impure, and the eyes get dull and heavy, glazed and listless. Dr. Pierce's Pleasant Fellets cure constipation speedily and permanently. They never gripe. You find Beaumont on a boom wh exceeds that of Shreveport. Beaumonis nearer the Sabine Lake, around which the fertile coast land lies. After a sight of Beaumont, the skeptic is no sawmills and lumber establishments in the world are located here. Lumber for building purposes gets down to \$7 a thousand. The market reaches from the cheapest grades to the finest texture, admitting of the superfine finish, such as hard curly pine. In the immediate vicinity are the great rice farms and rice mills, both great industries of the great est profits. Rice land is valued very high, because of such profits, while the fruit industry is practically without

GOOD OLD SIGNS. Every evidence of the growing town, such as the people of Kansas saw in 1886, is to be seen at Beaumon; now. The trains disgorge a stream of human be The depot platform is crowded. New buildings are in course of construction. The streets are difficult to traverse because of building material alongbeside a great crast lake, whose alluvial side, while on the business street nearly every vacant lot is an excavation. The real estate agent, not in evidence as bayou. A Prince, whose family name Shreveport, comes out strongly at Beauis Industry, with Push for short, came mont. There are many here and the are making money. Beaumont is on line directly between Houston and New Finally Port Arthur is reached What

is to be seen at this coast town, the That is the story of Port Arthur and reaching half way across the nation, is boom, put into words which so far as would have a doubtful effect were it not for what has been previously seen at Shreveport, at Beaumont end intervening points. Port Arthur is marvelous because men have stopped investing Its sudden growth, if it were alone prosperous, would warn people of its equally sudden collapse. But Shreveport is growing. Beaumont and the other towns in the vicinity are growing, the whole section is growing, and that one town, by its superiority of location, should ecnter in itself the very heart-blood and essence of this new life in the south is natural enough to be reassuring and to breath away the misty doubts and foggy hesitations which would naturally beset the mind if Port Arthur flourished and all the other towns in that portion of the country remained fallow.

HOW IT GROWS. Six months ago Port Arthur was noth ing. Today it is a flourishing little city, with a depot as commodious as any smiles the weary smile of a man who has in Kansas and a great deal more tastebeen there before, and is rather affront- ful in architecture. It has a large day a gulf port. New York interests a long pleasure pier and a pavilion out interest has remained idle. But a westtion of Port Arthur given play to this in the lake, a neat school house, a main weary, incredulous smile. Have they street with every business represented; that is seeking a quick gulf outlet for been right? No, they have not. Is and newspapers of course. And there the great western reservoir of grain and Port Arthur on a boom? Yes. Can it are buildings everywhere in construc-be so proved by good, sensible, legiti-tion.
